Basic Small Animal ULTRASOUND

Sunday
November 22, 2009

Presented by:

SCHOOL
of
VETERINARY MEDICINE

UNIVERSITY OF WISCONSIN - MADISON

ABOUT THE COURSE

Practical and Progressive Ideas for Veterinary Professionals in Private Practice!

This program will offer the small animal clinician an entry level introduction to diagnostic ultrasound including scanning routine, basic measurements, image optimization and purchasing guidelines.

Schedule: Four hours of lectures will cover major abdominal organ sonographic anatomy and scanning technique for both dogs and cats. Four hours of hands-on opportunities will be provided on normal dogs. Animals will be scanned in lateral recumbency.

COURSE INSTRUCTORS

Fern Delaney, R.D.M.S., Sonographer, Veterinary Medical Teaching Hospital, University of Wisconsin-Madison: Ms. Delaney has been a registered diagnostic medical sonographer since 1985. She has worked exclusively in a veterinary setting for 10 years. Her duties include clinical ultrasound training of Radiology and Small Animal Internal Medicine residents. She is a frequent lecturer at national sonography conferences.

Randi Drees, Dr.Med.Vet., Diplomate ACVR & ECVDI, Radiology & Radiation Oncology Resident, University Wisconsin-Madison: Dr. Drees graduated in Berlin, Germany, where she also pursued her doctoral thesis in cancer imaging and completed a rotating small animal internship. She is clinical instructor in Radiology and finishing up her Radiation Oncology Residency. She has broad interest in all aspects of diagnostic imaging, especially tumor & vascular imaging.

Michelle Ellison, VMD, Radiology Resident, University of Wisconsin-Madison: Following graduation from the University of Pennsylvania School of Veterinary Medicine, Dr. Ellison completed an internship in large animal medicine and surgery at the University of Georgia. She is currently in the first year of her radiology residency. She is especially interested in the applications of diagnostic imaging to lameness diagnosis.

Andrew Gendler, DVM, Radiology Resident, University of Wisconsin-Madison: Dr. Gendler graduated from the Washington State University College of Veterinary Medicine in 2003. After several years of practicing emergency and critical care in a busy multi-specialty and emergency hospital, he pursued his interest in diagnostic imaging. He is now nearly halfway through his radiology residency in Madison, WI and has particular interest in the computed tomographic (CT) diagnosis of musculoskeletal disorders and ultrasonography.

COURSE SCHEDULE

- 7:30 Registration and Continental Breakfast
- 7:50 **Welcome & Introductions**
- Dr. Randi Drees
- 8:00 **Basic Scanning Routine**
- Fern Delaney
- 8:50 **Diagnostic Interpretation I:
Liver, Gallbladder, Spleen**
- Dr. Randi Drees
- 9:35 Break
- 10:05 **Diagnostic Interpretation II:
Kidneys, Bladder, Prostate**
- Dr. Randi Drees
- 10:55 **Image Optimization and Equipment
Purchasing Guidelines**
- Fern Delaney
- 11:45 Lunch
- 12:15 **Hands-on Sessions**
Station A: Liver and Gallbladder
Station B: Spleen and Left Pancreas
Station C: Kidneys and Bladder (+/- Prostate)
Station D: Stomach, Pylorus, Duodenum, Right Pancreas,
Jejunum and Lymphnodes
- 3:55 Final Remarks
- 4:00 Adjourn

Equipment for hands on sessions provided by
Universal Ultrasound

9.0 CE

The UW School of Veterinary Medicine is
an approved continuing education provider.
