- 10.
- 11.
- 12.

**1** Students interested in dairy should take Mastitis Problems Investigations and Clinical Investigations of Fresh Cow & Calf Problems; those interested in beef should take 2 weeks of beef rotation at Iowa State University, or other schools with strong beef training programs, and 2 weeks at a diagnostic pathology lab.

---

**4<sup>th</sup> Year Rotation Priority Rotation Requests**

After you have identified ALL of the rotations you will be taking in the 4<sup>th</sup> year, develop a list of your **rotation scheduling priorities**, i.e. a list of rotations that are important for you to take at a specific time of the year. Make a ranked list of the **top 5 rotation priorities** that you would like to have implemented in your schedule.
