

# UWVC Pharmacy

Shelby Williams, DICVP, FSVHP, PharmD

# Primary Duties

## Precheck Prescriptions

Ensure medication, dose, and directions are appropriate for species, indication, etc. Assess drug interactions.

## Compounding

Make patient specific capsules and oral suspensions.

## Fill Medications

Fill medications and determine appropriate labeling for clients.

# Learning Outcomes

## Controlled Substances

What are controlled substances? Why are they controlled?  
What do the different schedules mean? How do you apply for a DEA license?

## Hazardous Drugs

What are the three categories of hazardous drugs?  
Why are they hazardous? What are the special handling, preparation, and administration requirements?

## Client Education

What info do clients need to know about handling and administering medications to their pets?

## Writing Prescriptions

Learn to write complete prescriptions that human pharmacists will understand.

## Resources

Learn resources to find the following info:  
Abx coverage, drug interactions, dosing  
IV compatibility, DEA requirements
